

APPLICATION COOKIE POLICY

COOKIES

About

A cookie is data (small text file) saved on your computer. If cookies are necessary for the functionality of the application, Klimato has the right to use them. However if the cookies are used for other reasons, such as analyzing how you interact with the appöocatopm, Klimato needs your consent to put cookies on your computer. You have the right to at any time retrieve your consent.

Consent

Klimato uses cookies in its app. There are functional cookies which make the application function properly. Moreover Klimato uses cookies to analyse how you interact with our application. You can find a list of the cookies used below:

- Google Analytics - analytical cookies
- Stripe - functional cookies

Klimato collects anonymous data from you when using the site. For this process cookies (small text files) are put on your computer for us to be able to provide you with a functioning application and, if you approve of it, collect information about your experience on our application for creating anonymized statistics. Google Analytics cookies help us measure how you interact with the content of the application. Stripe cookies are used for functionality and to protect our app from fraud. If you decline some of these cookies we will be unable to provide you the full Klimato application experience. Moreover some of the functionality which requires Klimato collecting personal data from you will not be available.

Details of the third parties' use of cookies can be found on their respective website.

Like most websites, app.klimato.se uses Google Analytics to trace user interaction. Klimato will use data from Google Analytics to determine the number of people users on the application, and to better understand how they find and use our application. Our hope is that these insights will help Klimato develop the application's functionality and user experience.

Google Analytics collects your data such as geographical location, device, internet browser and operating system, however this information does not personally identify you to us. Furthermore Google Analytics records computer IP addresses, this info could be used to identify you, but Google does not grant Klimato access to this. Klimato uses the analytics.js and gtag.js implementations of Google's services. Google is regarded as a third party data processor. You can read more about third party processors below in Klimato's Privacy Policy.

Klimato has chosen to use the analytics.js implementation of Google Analytics. Disabling cookies on your internet browser will put an end to Google Analytics from tracing any part of

your visit at Klimato's application. For further information regarding Google's use of cookies please read its cookie policies.
